

Application No. 10/666974
Amendment dated January 17, 2006

Docket No.: 0111554.00128US6

REMARKS

The examiner had previously indicated that claims 62 and 63 would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. In this response, we are electing to accept the allowed claims. Thus, we are moving essentially all of the limitations of claim 62 into claim 28, and we are moving the limitations of claim 48 into claim 63 to thereby yield two independent claims corresponding to dependent claims 62 and 63. We have eliminated the language in claims 62 and 63 that was mere commentary and did not limit the structure (i.e., "wherein during use the power that is supplied...is electrical power").

In view of the above amendments, applicant believes the pending application is in condition for allowance and thus asks the Examiner to allow the claims to issue.
